8:00 A.M. TO 3:00 P.M. • 6 CE CREDITS

ALL TEAM MEMBERS INVITED

In this fast paced seminar, you will learn the six essential key ingredients to the science behind success. Why do some people rise to the top in their field? Why is it that some have all the luck? In this program, you will learn how your E.Q. is more important than your I.Q. and how your attitude is more important than your latitude.

2 MAXILLARY & MANDIBULAR IMPLANT OVERDENTURES

SAM STRONG, DDS, DICOI

FRIDAY, OCTOBER 28TH, 2005 • DAC
8:00 A.M. TO 3:00 P.M. • 6 CE CREDITS

Features critical areas of treatment planning for the restorative dentist in conjunction with the surgeon and laboratory technician. Case management protocol for proper pre-surgical planning, stent fabrication techniques, combination advanced implant esthetic cases and a rational fee determination will be imparted.

TREATMENT PLANNING: FOCUSED GROUP

EXPLORING EXCELLENCE MEMBERS

THURSDAY, MARCH 9TH, 2006 • DAC
7:00 P.M. TO 9:00 P.M. • 2 CE CREDITS

Please identify a case that required multiple tries and/or extra resources to complete. Bring x-rays, models and/or photographs and prepare to discuss the ways in which it was problematic. For the meeting to be a success for you and your group, you must bring a case to discuss. **No admittance without a case.** Each group will consist of three or four members.
